

# Corona Haikus

By: Luke Robb

Dear COVID-19  
How you have messed up my spring  
Messed up all of Earth

Coronavirus  
Bringing the Earth to a halt  
Penting us all up

You have killed thousands  
And ruined the lives of many  
Take pity on us

We are all at home  
Under quarantine orders  
Bored out of our minds

You have ruined things  
Senior year, travel plans, lives  
The economy

All ruined because  
Someone had to eat a bat  
And that was the start

Senior's got it bad  
No more prom and no more friends  
No graduation

The economy  
In tatters, doing real bad  
All over the globe

Mass unemployment  
At an American high  
Many out of jobs

But you have brought good  
You have brought less pollution  
More people outside

Nature is happy  
Clean water in the Canals  
Venice Italy

Less smog in L.A.  
Less harmful gasses in air  
Healthier nature

We might find a cure  
Better sooner than later  
So we can all live

Restored normalcy  
That is how it ought to be  
That is what we want

And so I will pray  
That scientists find a cure  
Or you disappear

But COVID-19  
I ask you please go away  
For the rest of time

Coronavirus  
Oh how I loathe you so much  
You have changed the Earth
